## Transfection results OK?

If not, test your cell line for mycoplasma contamination

[Read the guide](#)

Mycoplasma contamination can impact eukaryotic cells in a variety of ways, diminishing the trustworthiness of experimental results. [This short guide explains](#) how mycoplasma can reduce transfection efficiency by depriving cells of essential amino acids.

Learn how mycoplasma affects transfection efficiency and how the MycoAlert<sup>®</sup> Mycoplasma Detection Assay helps maintain the integrity of your cell culture research and results.
